SUMMER STAFF ARRIVES SOON!

Zephyr Point is excited to welcome 27 young adults to join the 2023 Summer Staff! By Friday, June 9th, all of the Summer Staff will be moved into on-site housing and ready to officially begin Orientation Week. Orientation week (O-week) is the jumpstart to all things summer programs. The week is full of intense training including Mental Health First Aid, Social Emotional Learning, Crisis Management,

CPR/First Aid and more. Beyond all the necessary training for camp, staff begin to connect as a community by spending intentional time getting to know one another and enjoying their new home on the lake. Summer Staff is the critical piece that allows Zephyr Point to offer camp to hundreds of young people each summer. The staff itself is a group of impressive young adults that Zephyr Point seeks to offer professional, emotional, spiritual, and relational development throughout their time with us. O-week is truly the start of a Summer to remember for 27 young adults.

Sara Tillema, Director of Programs

WE STILL NEED ONE MORE LIFEGUARD!

As close as O-week is, we are still looking for just one more lifeguard to join the team. Although the timeline is tight, we still believe there may be one more young person for whom a summer spent outside, with friends and working a meaningful job might be exactly what they need. If you know anyone still looking for their summer plans, who either has their lifeguard certification or would be able to come and complete the cert with us ahead of time please invite them to apply or reach out at programs@zephyrpoint.org or call 775-588-6759 ext. 113.

Kelsey Jones
Activities Coordinator

WANT TO VOLUNTEER AS A CAMP NURSE THIS SUMMER?

Licensed Nurses are invited to share their specialized skills by joining the Zephyr Point camp team this summer. Volunteer Camp Nurses are an absolutely vital part of the camp experience. Zephyr Point campers range in age from 6-17, and the Camp Nurse acts not only as a first responder in the case of emergencies, but offers care for minor injuries such as cuts, scrapes, and bruises and distribution of prescription medications. Most of our campers are elementary-aged, so Camp Nurses tend to offer lots of emotional support and Band-Aids! We can't wait to welcome you to the ZP Camp family! (Note: Room/board is provided for all volunteer camp nurses). For questions, reach out to the Programs Department at programs@zephyrpoint.org.

WHO CAN VOLUNTEER:

We are looking to accept up to 8 individuals who are licensed nurses. We prefer nurses who have either had specific pediatric patient experience or have worked with youth in other settings.
